Abiral Pokhrel

Front-End Developer

I am a full-time front-end developer. I have been studying software engineering at GCES. I have developed many apps including a college management app, a to-do app, and most recently an e-commerce app with API integration and flutter at the front end. I have also created websites for college management using HTML, CSS, and javascript at the front end and PHP at the back end.

- Javascript - Skillful

EXPERIENCE

Frontend Developer
Dioralabs / Australia / May, 2022 - December, 2022

- Developed the front end of an e-commerce app with API integration using Flutter. The app allows vendors to create their shops and add their items to their shops after being verified by the admin. Also, Customers can buy products from the vendor.
- Managed complaints with calm, clear communication and problem-solving.
- Built and maintained courteous and effective working relationships.

PROJECTS

KhojNet
KhojNet is an online e-commerce app that will allow the vendor to put their product on the app after being verified by the admin and customers to buy the products.
